No. Cion prop.:	5227/08 AGRIORG 3 CODEC 26
Subject:	Proposal for a Regulation of the European Parliament and of the Council concerning the general rules on the definition, description and presentation of aromatized wines, aromatized wine-based drinks and aromatized wine-product cocktails (Recast)

I. INTRODUCTION

1. On 20 December 2007 the Commission adopted the above proposal **which recasts Council Regulation (EEC) No 1601/91 of 10 June 1991** laying down general rules on the definition, description and presentation of aromatized wines, aromatized wine-based drinks and aromatized wine-product cocktails¹.

¹ OJ L 149, 14.6.1991, p. 1. Regulation as last amended by the 2005 Act of Accession.

More particularly, this recast is designed to bring the Regulation into line with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission¹, as amended by Council Decision 2006/512/EC of 17 July 2006².

Article 5a of Decision 1999/468/EC as amended introduces a new **regulatory procedure with scrutiny** for measures of general scope designed to amend non-essential elements of a basic instrument adopted in accordance with the procedure referred to in Article 251 of the EC Treaty, including by deleting some of those elements or by supplementing the instrument by the addition of new non-essential elements.

2. In accordance with the Interinstitutional Agreement of 28 November 2001 on a more structured use of the recasting technique for legal acts³, and in particular paragraph 9 thereof, the Consultative Working Party consisting of the respective Legal Services of the European Parliament, the Council and the Commission met on 8 January 2008 to consider this and other proposals. On that occasion they noted that⁴:
- in Article 1 of the French text, "*établit*" should be replaced by "*prévoit*" (no change to EN version);
 - in Article 2(2)(d) of the French text, the words "*et/ou de cannelle*" (and/or cinnamon) had been added to correct an error in the French version of the original act, and it would have been preferable for the correction to be shown as a substantive change rather than as an adaptation;
 - in Article 3, the title "Subsidiary definitions" should be deleted;
 - the proposal contained no substantive amendments apart from those identified as such in the proposal itself and in the Consultative Working Party's opinion;

¹ OJ L 184, 17.7.1999, p. 23.

² OJ L 200, 22.7.2006, p. 11.

³ OJ C 77, 28.3.2002, p. 1.

⁴ For the Consultative Working Party's opinion, see 7548/08, which exists in French only (the original language of the Commission proposal was French).

- with regard to the codification of the unchanged provisions of the earlier act with those substantive amendments, the proposal was indeed confined to straightforward codification without substantive changes to the acts concerned.
- 3. As the proposal is based on Articles 37 and 95 of the TEC, it is subject to the codecision procedure with the European Parliament¹. The European Economic and Social Committee delivered its opinion on the Commission proposal on 13 February 2008².
- 4. As instructed by the Special Committee on Agriculture on 28 January 2008, the Working Party on Wines and Alcohols discussed the proposal at its meeting on 31 March 2008 and noted the opinion of the Consultative Working Party of the three institutions' Legal Services.

II. OUTCOME OF THE EXAMINATION OF THE RECASTING PROPOSAL

- 5. Delegations recognised that a recast of the Regulation was necessary, but:
 - (a) Some delegations (DE, EL, IT and PT) **had doubts as to whether this was the right time to recast the Regulation** given that some of the acts to which the proposal referred were themselves undergoing revision. The Commission representative took note of this comment but emphasised the need for the committee procedure provisions to be adjusted now. Further amendment of the Regulation arising from the adoption of new acts replacing those mentioned in the recasting proposal ought not to raise any difficulties.
 - (b) One delegation (ES, supported by DE and PT) sought a **more far-reaching overhaul of the Regulation** on the grounds that this was a dated piece of legislation and it was not only the committee procedure provisions that were in need of adjustment. The Commission representative noted the request.

¹ The European Parliament is expected to deliver its first-reading opinion at its July 2008 part-session.

² CESE 277/2008.

- (c) One delegation (CZ) asked for a **category of aromatised wine-based drink**¹ to be added to the list in Article 2(3). The Commission representative said this would be a substantive amendment to the Regulation, which could not be taken into consideration now but could, if appropriate, enter into a later revision process. He also pointed out that the fact that certain products were not mentioned in the Regulation was not an obstacle to marketing them.
- (d) One delegation (IT) wanted the **committee procedure provisions** to be worded more precisely. One delegation (DK, supported by EL, ES, NL and SE) queried the reasons behind **the Commission's choice of committee procedure in certain articles of the proposal**. One delegation (ES) thought that the regulatory procedure with scrutiny should be applied virtually across the board, as was the case in the spirit drinks Regulation². The Commission representative said that this proposal followed the same approach as the spirit drinks Regulation.

III. CONCLUSION

6. Concluding the Working Party's technical examination of the recasting proposal, the Presidency said that it was now for the Special Committee on Agriculture to take the outcome of that examination into account and **express its position on the text in the Annex hereto**, which reflects the Consultative Working Party's opinion referred to above.

N.B.: The Working Party's recommended amendments to the Commission's original proposal are marked as follows:

- deletion: ➔ [...] ➔
- addition: ➔ added text ➔.

In recasting proposals under the regulatory procedure with scrutiny, grey background may normally only be used for text which relates to the alignment of committee procedure provisions on Decision 1999/468/EC as amended, **but, as an exception**, in Article 2(2)(d) of the French text the words "et/ou de cannelle" appear on a grey background in order to show that this is a substantive change.¹

¹ In principle this amendment concerns the French text only. See second indent of section 2 of this report.

- (1) Regulation (EEC) No 1601/91 of the Council of 10 June 1991, laying down general rules on the definition, description and presentation of aromatized wines, aromatized wine-based drinks and aromatized wine-product cocktails¹ has been substantially amended several times². Since further amendments are to be made, it should be recast in the interests of clarity.

↓ 1601/91 Recital 1 (adapted)

- (2) Given the economic importance of aromatized wines, aromatized wine-based drinks and aromatized wine-product cocktails, hereinafter called “aromatized drinks”, it is necessary, in order to assist the proper functioning of the internal market, to lay down common provisions on this subject, in particular with regard to the definition of such drinks and the requirements concerning their description and presentation.

¹ OJ L 149, 14.6.1991, p. 1. Regulation as last amended by the 2005 Act of Accession.

² See Annex III.

- (3) ☒ The ☒ aromatized drinks constitute a major outlet for Community agriculture. This outlet is largely the result of the reputation which certain of these drinks have acquired throughout the Community and on the world market. This reputation can be attributed to the quality of the drinks in question. A certain quality standard should therefore be maintained for the drinks in question if this outlet is to be preserved. The appropriate means of maintaining this quality standard is to define the said drinks, taking into account the traditional practices on which their reputation is based. Moreover, the terms thus defined should be used only for drinks of the same quality as traditional drinks so as to prevent their being devalued.

↓ 1601/91 Recital 3

- (4) It is appropriate that an appropriate framework be created for aromatized drinks which are composed for the major part of wine or musts, while allowing for development and innovation as regards such drinks. This objective can be achieved more easily by creating three categories of drinks on the basis of their wine content, alcoholic strength and whether or not alcohol has been added to them.

↓ 1601/91 Recital 4

- (5) It is appropriate that Community rules should reserve, for certain territories, the use of geographical ascriptions referring thereto, provided that the stages of production during which the finished product acquires its characteristics and definitive properties are completed in the geographical area in question.

↓ 1601/91 Recital 5 (adapted)

- (6) The customary means of informing the consumer is to include certain information on the label. The labelling of aromatized drinks is subject to the general rules laid down in Directive [2000/13/EC](#) [of](#) [the European Parliament and of the Council of 20 March 2000](#) [on the approximation of the laws of the Member States relating to the labelling, presentation and advertising of foodstuffs](#)¹. In view of the nature of the drinks in question and so that the consumer may have fuller information, provisions additional to these general rules should be adopted.

¹ [OJ L 109, 6.5.2000, p. 29. Directive as last amended by Directive 2006/142/EC \(OJ L 368, 23.12.2006, p. 110\)](#) [.](#)

↓ 1601/91 Recital 6

- (7) In the mind of the consumer, the reputation of certain aromatized drinks is closely linked to a traditional origin. In order to ensure that the consumer is appropriately informed and to take account of these specific cases, it is appropriate to make it compulsory to indicate the origin in cases where the drink does not come from the traditional region of production.

↓ 1601/91 Recital 7

- (8) In order to enable appropriate information to be given on the composition of the drink, certain labelling rules relating to the nature of the alcohol used should be adopted.

- (10) Council Directive 88/388/EEC of 22 June 1988 on the approximation of the laws of the Member States relating to flavourings for use in foodstuffs and to source materials for their production¹ puts forward definitions of various terms liable to be used in connection with flavouring. The same terminology should be used in this Regulation.

↓ 1601/91 Recital 10

- (11) Specific provisions should be adopted concerning description and presentation for imported aromatized drinks, bearing in mind the Community's commitments in its relations with third countries.

↓ 1601/91 Recital 11

- (12) In order to defend the reputation of Community aromatized drinks on the world market, the same rules should be extended to exported drinks, except where there are contrary provisions, bearing in mind traditional habits and practices.

- (13) The measures necessary for the implementation of this Decision should be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission¹.
- (14) Power should be conferred on the Commission in particular to adapt this Regulation in order to authorise, in certain cases and under certain conditions, the use of certain substances and preparations, to decide specific descriptions, to adopt definitions other than those already provided for in this Regulation, to determine the processes for products being prepared for the purpose of obtaining the finished products, to adopt special provisions governing the use of terms referring to a certain property of the product and the rules governing the labelling of aromatized drinks in containers not intended for the final consumer, and to establish the exceptions concerning aromatized drinks intended for exportation. Since those measures are of general scope and are designed to amend non-essential elements of this Regulation they should be adopted in accordance with the regulatory procedure with scrutiny provided for in Article 5a of Decision 1999/468/EC,
