COMMUNICATION FROM THE COMMISSION TO THE COUNCIL

**European Development Fund (EDF): forecasts of commitments, payments and
contributions
from Member States for 2014, 2015, 2016, 2017 and 2018**

1. FOREWORD

In accordance with Article 7(3) of the 10th EDF Internal Agreement¹ and Article 57(2) of the Council Regulation (EC) No 215/2008 on the Financial regulation applicable to the 10th European Development Fund (hereinafter referred to as "10th EDF Financial Regulation")², the Commission presents in this document estimates of commitments, payments and contributions for the period 2014 to 2016, taking into account the forecasts of the European Investment Bank (EIB).

This document sets out the financial implementation of the EDFs (8th to 10th) for 2013 and the forecasts of implementation for 2014 till 2016. In addition, this document draws a non-binding estimation, for the EDF contributions, from the Member States, for the years 2017 and 2018.

The Member States contribute funds directly to the European Investment Bank for the instruments which it manages under the 9th and 10th EDFs (the Investment Facility and interest-rate subsidies).

2. INTRODUCTION

The Commission and the EIB have updated their commitment and payment forecasts for 2014, 2015 and 2016 for each of the ACP countries³ and the OCTs⁴. The payment forecasts in particular have been compiled with the aim of helping the Member States to assess as accurately as possible the amounts they need to earmark in their national budgets while ensuring that sufficient financial resources are available for the EDF to avoid liquidity problems.

In accordance with Article 7 of the 10th EDF Internal Agreement⁵ and Article 57(5) of the 10th EDF Financial Regulation⁶, the estimates provided in this document have been updated.

The graph below shows the general trend in gross commitments and payments since 1999, including projections for 2014, 2015 and 2016 (Commission and EIB cumulated amounts).

NB: figures from implementation of the European Development Funds at 31 December 2013 (commitments, payments and financial situation) and forecasts for 2014, 2015 and 2016.

The attachments 1, 2 and 3 show respectively the actual commitments, payments and financial situation recorded in 2014 compared with previous forecasts.

3. FINANCIAL FORECASTS FOR 2014 - 2016

The following table provides an update of the commitments, the payments and of the contributions, based on our latest forecasts.

Forecasts 2014-2016 (*)		(**)	2014	2015	2016

	EIB		106	200	250
	Total		3.250	3.600	3.600

⁷ For 2014-2016, forecasted amounts

* gross amounts, i.e. no decommitments or recoveries/reflows have been deducted. This approach is in line with that used for the general budget of the EU.

** It is yet unclear when the 11th EDF will be ratified, and thus when commitments can be made from 11th EDF funds. The commitment amount mentioned does not foresee the 11th EDF in force in 2014 but takes into account the use of a bridging fund, that is composed from de-commitments of older EDF's and unused 10th EDF funds at 31/12/2013, and de-commitments from 8th ,9th and 10th EDF during 2014.

4. NON-BINDING ESTIMATION OF CONTRIBUTION FOR 2017 - 2018

Forecasts 2014-2016 (*)		(***) 2017	(***) 2018
Contributions	Commission	3.450	3.500
	EIB	200	170
	Total	3.650	3.670

***Art.21 (2) Bridging Facility Financial Regulation (EU567/2014): indicative, non-binding forecast based on a statistical approach for the expected annual amounts of contributions for the years n + 3 and n + 4.

5. FINANCIAL IMPLEMENTATION FORECASTS FOR 2014, 2015 AND 2016

The updated forecasts are set out in Attachments 1 to 3.

The updated 2014 forecasts confirm the Member States' contributions to the EDF for 2014 at EUR 3 250 million, as decided by the Council in October 2013⁸.

It should be noted that due to the request of the EIB to cancel the third instalment for 2014 and as a consequence of the increase in payments made by the Commission in the course of 2013 and of those planned for 2014, justifying an increase in treasury needs, the amount cancelled by the EIB has been transferred to the Commission. This means that the final request to the Member States is EUR 3 144 million for the Commission and EUR 106 million for the EIB (see attachment 4 for detail on the split of the 2014 contribution requests).

It should be stressed that these figures confirm the June 2014 communication from the Commission in terms of consumption for the current year. Also to be noted is the Ebola crisis in West African countries with a potentially major financial impact on the relatively small EDF cash balance.

For 2015, the annual amount of the contribution is set to EUR 3 600 million inline with the ceiling voted by the Council in November 2013⁹. However, the EIB share accounts for EUR 200 million (down by EUR 100 million compared to the ceiling communication decided in November 2013) while the Commission will amount to EUR 3 400 million (up by EUR 100 million). This transfer allows smoothing the binding Member States contribution for 2015 (annual amount) and 2016 (ceiling amount) at EUR 3 600 million.
