COMMISSION OF THE EUROPEAN COMMUNITIES

Brussels, 30.11.2009 COM(2009)651 final

Proposal for a

COUNCIL REGULATION

opening and providing for the management of autonomous Community tariff quotas for certain agricultural and industrial products

EN EN

1. CONTEXT OF THE PROPOSAL

1.1. Grounds for and objectives of the proposal

Autonomous Community tariff quotas are needed for products where production in the Community is insufficient to meet the needs of the user industry in the Communityfor the current quota period. In response to requests from several Member States, the Commission, together with the government experts concerned, considered whether to open autonomous tariff quotas for certain agricultural and industrial products.

1.2. General context

On 20 December 1996 the Council adopted Regulation (EC) No 2505/96 opening and providing for the administration of autonomous Community tariff quotas for certain agricultural and industrial products so that Community demand for the products in question could be met under the most favourable conditions. In view of the numerous amendments made to this Regulation and the transparency policy of the Commission the Regulation should be replaced by this proposal.

Community tariff quotas should be opened at zero or reduced rates of the autonomous Common Customs Tariff duty for appropriate volumes, without disturbing the markets for such products. Discussions at meetings of the Economic Tariff Questions Group showed that the Member States were ready to open quotas for the products covered by the proposal for a Regulation, without disturbing the markets for such products

1.3. Provisions in force in the field covered by the proposal

Regulation (EC) No 2505/96 (OJ L 345, 31.12.1996, p.1), as last amended by Regulation (EC) No 563/2009 (OJ L 168, 30.6.2009, p.1).

1.4. Consistency with the other policies and objectives of the Union

The proposal is in line with agricultural, trade, entreprise, development and external relations policies. Especially this proposal is not at the expense of countries enjoying a preferential trading agreement with the EU (e.g. GSP, ACP regime, candidate and potential candidate countries of the Western Balkans).

2. CONSULTATION OF INTERESTED PARTIES AND IMPACT ASSESSMENT

2.1. Consultation of stakeholders

Consultation methods, main sectors targeted and general profile of respondents

The Economic Tariff Questions Group representing the industries of each Member State was consulted.

Summary of responses and how they have been taken into account

All listed quotas reflect the agreement reached by the Group.

2.2. Collection and use of expertise

Scientific areas or fields of expertise concerned

Experts representing the Member States in the Economic Tariff Questions Group.

Methodology used

Open consultation.

Main organisations/experts consulted

Experts designated by each of the Member States.

Summary of advice received and used

There was no mention of potentially serious risks with irreversible consequences.

Agreement of the Economic and Tariff Questions Group.

Methods used to make the results of these expert opinions available to the public

Publication of the proposal.

2.3. Impact assessment

Not applicable.

The proposal is not mentioned in the Commission's Legislative and Work Programme for 2010.

3. LEGAL ELEMENTS OF THE PROPOSAL

3.1. Summary of the proposed action

Implementation of a Council Regulation opening and providing for the management of autonomous Community tariff quotas for certain agricultural and industrial products.

3.2. Legal basis

Article 26 of the EC Treaty.

3.3. Subsidiarity principle

The proposal falls under the exclusive competence of the Community. The subsidiary principle therefore does not apply.

3.4. Proportionality principle

The proposal complies with the principle of proportionality for the following reasons.

This set of measures is in line with the principles for simplifying the procedures for the operators engaged in foreign trade and with the Commission communication of 1998 concerning autonomous tariff suspensions and quotas (C 128, 25.4.1998, p.2).

3.5. Choice of instruments

Proposed instruments: Regulation

Other instruments would not be appropriate for the following reasons:

By virtue of Article 26 of the EC Treaty autonomous tariff quotas are approved by the Council acting on a qualified majority on the basis of a Commission proposal.

4. BUDGETARY IMPLICATION

Uncollected customs duties with a total amount of €-37 163 112.

5. ADDITIONAL INFORMATION

Proposal for a

COUNCIL REGULATION

opening and providing for the management of autonomous Community tariff quotas for certain agricultural and industrial products

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 26 thereof

Having regard to the proposal from the Commission,

Whereas:

- (1) Production in the Community of certain agricultural and industrial products is insufficient to meet the specific requirements of the user industries in the Community. Consequently Community supplies of those products depend to a considerable extent on imports from third countries. The most urgent Community requirements for the products in question should be met immediately on the most favorable terms. Community tariff quotas at preferential duty rates should therefore be opened within the limits of appropriate volumes taking account of the need not to disturb the markets for such products or impede the establishment or development of Community production.
- (2) It is necessary, to ensure for all Community importers equal and uninterrupted access to those quotas and to ensure the uninterrupted application of the rates laid down for the quotas to all imports of the products concerned into all Member States until the quotas have been exhausted.
- (3) Commission Regulation (EEC) No 2454/93 of 2 July 1993 laying down provisions for the implementation of Council Regulation (EEC) No 2913/92 establishing the Community Customs Code¹ provides for a system of tariff quota management which ensures equal and uninterrupted access to the quotas and uninterrupted application of the rates and follows the chronological order of dates of acceptance of declarations of release for free circulation. The tariff quotas opened by this Regulation should therefore be managed by the Commission and the Member States in accordance with that system.
- (4) The quota volumes are mostly expressed in tonnes. For certain products for which an autonomous tariff quota is opened the quota volume is set out in another measurement unit. Where for those products no supplementary measurement unit is specified in the Combined Nomenclature laid down in Annex I to Council Regulation (EEC) No

OJ L 253, 11.10.1993, p.1.

2658/87 of 23 July 1987 on the tariff and statistical nomenclature and on the Common Customs Tariff² there can be uncertainty in respect of the measurement unit used. For the sake of clarity and in the interest of a better quotas management it is therefore necessary to provide that, in order to benefit from those autonomous tariff quotas, the exact quantity of the products imported are to be entered in 'Box 41: Supplementary units' of the declaration for release for free circulation using the measurement unit of the quota volume set out for those products in the Annex to this Regulation.

- (5) Council Regulation (EC) No 2505/96 of 20 December 1996 opening and providing for the administration of autonomous Community tariff quotas for certain agricultural and industrial products³ has been amended many times. In the interest of transparency it should therefore be replaced in its entirety.
- (6) The measures necessary for the the adoption of amendments of this Regulation arising from amendments of the Combined Nomenclature and TARIC codes shall be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise on implementing powers conferred on the Commission⁴.
- (7) Since the tariff quotas have to take effect from 1 January 2010, this Regulation should apply from the same date and enter into force immediately,

HAS ADOPTED THIS REGULATION:

Article 1

For the products listed in the Annex autonomous Community tariff quotas shall be opened within which the autonomous Common Customs Tariff duties shall be suspended for the periods, at the duty rates, and up to the volumes indicated therein.

Article 2

The tariff quotas referred to in Article 1 shall be managed by the Commission in accordance with Articles 308a, 308b and 308c of Regulation (EEC) No 2454/93.

Article 3

Where a declaration for release for free circulation is presented for a product mentioned in this Regulation, for which the quota volume is expressed in a measurement unit other than the weight in tonnes or kilogram and than the value, for products for which no supplementary unit is set out in the Combined Nomenclature laid down in Annex I to Council Regulation (EEC) No 2658/87, the exact quantity of the products imported shall be entered in "Box 41: Supplementary units" of that declaration using the measurement unit of the quota volume for those products as set out in the Annex to this Regulation.

OJ L 256, 7.9.1987, p. 1.

³ OJ L 345, 31.12.1996,p.1.

⁴ OJ L 184, 17.7.1999, p.23.

Article 4

The amendments and technical adaptations arising from amendments of the Combined Nomenclature and TARIC codes shall be adopted in accordance with the procedure laid down in Article 5(2).

Article 5

- 1. The Commission shall be assisted by the Customs Code Committee set up by Article 248a of Regulation (EEC) No 2913/92.
- 2. Where reference is made to this paragraph, Articles 4 and 7 of Decision 1999/468/EC shall apply.

The period laid down in Article 4 (3) of Decision 1999/468/EC shall be set at three months.

Article 6

Regulation (EC) No 2505/96 shall be repealed.

Article 7

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

This Regulation shall apply from 1 January 2010.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Council The President

⁽¹⁾ The relief from or reduction of customs duties shall be subject to the conditions laid down in the relevant Community provisions with a view to customs control of the use of such goods (see Articles 291 to 300 of Commission Regulation (EEC) No 2454/93 (OJ L 253, 11. 10. 1993, p. 1)).

⁽²⁾ However, the measure is not allowed where processing is carried out by retail or catering undertakings.

LEGISLATIVE FINANCIAL STATEMENT FOR PROPOSALS HAVING A BUDGETARY IMPACT EXCLUSIVELY LIMITED TO THE REVENUE SIDE

1. NAME OF THE PROPOSAL:

Council Regulation opening and providing for the management of autonomous Community tariff quotas for certain agricultural and industrial products

2. BUDGET LINES:

Chapter and Article: Chapter 12, Article 120

Amount budgeted for the year 2010: **€14 079 700 000 €(PDB 2010)**

3. FINANCIAL IMPACT

x□ Proposal has no financial impact on expenditure but has a financial impact on revenue – the effect is as follows:

(€million to one decimal place)

Budget line	Revenue ⁵	12 month period, starting dd/mm/aaaa	[Year 2010]
Article 120	Impact on own resources	01/01/2010	- 37.2

4. ANTI-FRAUD MEASURES

Provisions on the management of tariff quotas include the measures needed to prevent and protect against frauds and irregularities.

Regarding traditional own resources (agricultural duties, sugar levies, customs duties) the amounts indicated must be net amounts, i.e. gross amounts after deduction of 25% of collection costs.
